

# Gangsta Girl

One Chance

I was five and he was six  
We wrote down horses made of sticks  
He wrote black and I was white,  
He would always win the fight,  
Bang, bang, shut me down,  
Bang, bang, hit the ground,  
Bang, bang, a lot of sound,  
Bang, bang, my baby shut me down.

Yeah, ohh

All the girls are on me now  
But I'm only looking for the one good girl that gangsta, gangsta girl  
I love it when she bending over 'cause I can't help with a booty like that  
Come on set on my lap  
And I love girl name chocolate, she know how to rock it  
Another girl name bunny when I bite her she bite back  
Then she grap her hip [?] got me feeling like  
I'm asking how you do that, 'cause she got, got my brain stuck like on auto  
pilot like

[Chorus:]

Shawty she's a gangsta, shawty she's a gangsta,  
Shawty She's a gangsta, shawty she's a gangsta,  
When she drop it low she let me know that she's the gangsta  
Shawty you a gangsta shawty you a gangsta  
Yeah yeah oh ohh  
Shawty you a gangsta [x6]

Walk up in the club now  
But all I see is that big ol booty falling down  
Drop it like a low rider  
When she come in quick with us [?]  
With a body so thick  
See I love that girl named diamond  
She know how to clap it  
With her partner peaches  
They be gettin freaky  
But this chick right here got me feeling like  
Asking how she do that and she got my brain stuck like on auto pilot

[Chorus]

Na na na na  
Uhh, yeah girl, you're so official  
Like a referee with a whistle  
I'm a have to grab more ones  
And have shawty go and drop it low on a dizzle  
How many licks do it take  
Do get to the center of the toostie roll drizzle  
Ain't try to be rude but that right there look a lil bit swoll in the middle  
Now This, right here, is your song, girl  
So go ahead take off your thong girl  
As she headed to the top of the pole  
She bout drop it low in five, four, three, two
