

## Up And Away

One Chance

Girl picture this  
You and me  
On a G5 flight to heaven  
This is where  
You wanna be  
Just a .. and the loving  
I'm gone  
And I need  
The best party girl you ever seen  
First class with me  
Don't be scared to go up and away with me  
Up and away with me

Cause I'm gonna blow you up your world baby  
I'll fly you anywhere that you wanna go  
Up and away  
Now picture this  
No turbulence  
..  
You can't resist  
These complements that I'm whispering in your ear  
See you with me  
It's like snow on a mountain peak  
We can be like the sun is kissing the see  
Let's go up and away  
Up and away

Take a trip to Mexico  
Watching you spend my pesos  
Where gonna make love on the sand  
While whispering  
I don't say a word  
Cause .. got you going crazy  
And we won't stop baby until we'll reach the sun  
.. my heart got beating like a drum  
And I'm gonna introduce you to the ,, club  
I'll fly you any way any way you want to go
