

# Na Na Na

One Direction

We've got a bit of love hate  
You take me to the edge then you hit the breaks  
I say it's over one day,  
But then I'm crawling back begging you to stay  
We make up then we break up all the time

I'll say that I hate her song, then you'll go request it the whole night long  
Some people say it's so wrong but even when we fight,  
It'll turn me on  
We make up then we break up all the time

R: We're like na na na  
Then we're like yeah yeah yeah  
Always like na na na  
Then we're like yeah yeah yeah

No we can't make up our minds  
Cause when we think we've got it right  
We go na na na na

You wanna party too late  
But when I do the same all you do is complain  
You know that it drives me insane  
But when I get with you girl you make it okay

We make up then we break up all the time

R: We're like na na na...

No we can't make up our minds  
Cause when we think we've got it right  
We go na na na na

R: We're like na na na... (2x)

No we can't make up our minds  
Cause when we think we've got it right  
We go na na na na
