

# Stockholm Syndrome

One Direction

Who's that shadow holding me  
hostage?  
I've been here for days  
Who's this whisper telling me that I'm  
never 'gonna get away?

I know they'll be coming to find me  
soon  
But I fear I'm getting used to  
Being held by you

Baby look what you've done to me  
Baby look what you've done now  
Baby I'll never leave if you keep  
holding me this way  
Baby look what you've done to me  
Baby you got me tied down  
Baby I'll never leave if you keep  
holding me this way

Who's this man that's holding your  
hand  
And talking about your eyes?  
Used to sing about being free but  
now he's changed his mind

I know they'll be coming to find me  
soon  
But my Stockholm Syndrome is in  
your room  
Yeah I fell for you

Baby look what you've done to me  
Baby look what you've done now  
Baby I'll never leave if you keep  
holding me this way  
Baby look what you've done to me  
Baby you got me tied down  
Baby I'll never leave if you keep  
holding me this way

All my life I've been on my own  
I used the light to guide me home  
But now together we're alone  
And there's no other place I'd ever  
wanna' go

Baby look what you've done to me  
Baby look what you've done now  
Baby I'll never leave if you keep  
holding me this way  
Baby look what you've done to me  
Baby you got me tied down  
Baby I'll never leave if you keep  
holding me this way
