## What a Feeling

**One Direction** 

Through the wire, through the wire, through the wire I'm watching her dance Dress is catching the light In her eyes, there's no lies, no lies There's no question, she's not in a disguise

There's no way out and a long way down Everybody needs someone around But I can't hold you, too close now Through the wire, through the wire

What a feeling to be right here beside you now Holding you in my arms When the air ran out and we both started running wild The sky fell down But you've got stars in your eyes And I've got something missing tonight What a feeling to be a king beside you, somehow I wish I could be there now

Through the wire, through the wire, through the wire I'm watching you like this Imagining you're mine It's too late, too late, am I too late? Tell me now, am I running out of time?

There's no way out and a long way down Everybody needs someone around But I can't hold you too close now Through the wire, through the wire

What a feeling to be right here beside you now Holding you in my arms When the air ran out and we both started running wild The sky fell down But you've got stars in your eyes And I've got something missing tonight What a feeling to be a king beside you, somehow I wish I could be there now

Whatever chains are holding you back Holding you back, don't let 'em tie you down Whatever chains are holding you back Holding you back, tell me you believe in that

What a feeling to be right here beside you now Holding you in my arms When the air ran out and we both started running wild The sky fell down But you've got stars in your eyes And I've got something missing tonight What a feeling to be a king beside you, somehow I wish I could be there now I wish I could be there now
