

My Revolution

One Fine Day

i feel like the world turns against me right now
everyone knows what's best for me
but i have my own goals now
own goals now
don't you see this is my time to rise and shine

this is my revolution
i'm going my way
why can't you see
this is my revolution today

you want me the best with ypur blueprint of life
but i can't breathe in this golden cage
le me live my dreams now
my dreams now
don't you see that this is my time to rise and shine
this is my revolution i'm going my way
why can't you see ths it's
my revolution today

you'll never know what it really means
never know how it really feels
never know that the time is now
to go your own way

you never will experience
to have your heart as your best friend and how it is to challen
ge fate
cause you are too late

this is my revolution
