

Well nothing hurts me  
Like seeing you hurt  
Or changed me  
Like the day you went away  
I know you said I was never there  
You were always a good friend

I don't talk about it  
I only cry when you don't see  
Though I walk around it  
The second I looked away  
I felt I was to blame

I never wanted to let you down  
But I couldn't fake it  
And if you think it's better now  
Soon you will see, all the ways

Did you walk in circles, hey?  
Did you hurt a little more that day?  
I know you said you would never wait  
But you were always my best friend

I don't talk about you  
I only cry when you don't breathe  
Though I waltz around you?  
The second I looked away  
You fell flat on your face

I never wanted to let you down  
But I couldn't fake it  
And if you think it's better now

Soon you will see, all the ways

I never wanted to let you down  
But I couldn't take it  
And if you think it's better now  
Soon you will see, all the ways

5:00 a.m.  
And its really early for me  
I'm tired of replacing  
Everyone I need

I don't talk about you  
I only cry when you don't breathe  
Though I waltz around you?  
I heard your voice today  
And you swear I'm not to blame

I never wanted to let you down  
But I couldn't fake it  
And if you think it's better now  
Soon you will see, all the ways

I never wanted to let you down

But I couldn't take it  
And if you think it's better now  
Soon you will see, all the ways  
All the ways  
All the ways  
All the ways
