One Less Reason

If I said the wrong thing would you leave?
Though my fingers may break, I just can't let you go
Don't know why I believed you,
Not with that promise you made me just yesterday

I will always love you, take the me out of you
A lot of people gonna be dissapointed when they find out,
I love you and I need you
Til my heart stops beating,
I'll never lose this feeling
A lot of people gonna be dissapointed when they find out

Though I'm not your best friend,
Don't you see that I'd do anything to keep you with me
Close your eyes, hold on tight, spin around, it's alright
Don't you see my plans will always have you in them?

I will always love you, take the me out of you
A lot of people gonna be dissapointed when they find out,
I love you and I need you
Til my heart stops beating,
I'll never lose this feeling
A lot of people gonna be dissapointed when they find out
