

Labeled

One Less Reason

Since you left me here the sun won't shine
I could never see it from your view
And since then I don't have much to give
I hear I never meant that much to you, and I'm sorry...

I close my eyes and it's just your face
And on my heart I wrote your name
I want you to be free, I want you to be free from me

Hear me laugh or see me smile but know inside my heart is break
ing
It's been so long since I've seen your face and now I'm not sur
e that I can make it
Through this life another day With alone written on my label
I wonder if you feel the same

Everyone here had the chance to love
I guess I didn't get that choice
I know someone sings the song The song of your heart
I guess I didn't have the voice And I'm sorry...

I close my eyes and it's just your face
And on my heart I wrote your name
I want you to be free, I want you to be free from me

Hear me laugh or see me smile But know inside my heart is break
ing
It's been so long since I've seen your face and now I'm not sur
e that I can make it
Through this life another day With alone written on my label
I wonder if you feel the same...
