

# I Told You Already

## One Morning Left

You talk too much  
So keep your big mouth shut  
Hope you understand these facts  
Cause I will bury you alive

Get the fuck away from me  
There will be only me  
Get the fuck away from me  
There will be only me

I should know  
What you know

You talk too much  
So keep your big mouth shut

I should know  
What you know

Get the fuck away from me  
There will be only me  
Get the fuck away from me  
There will be only me

Even if your life is so fucking wasted

You talk too much  
So keep your mouth shut  
Hope you understand  
I'll bury you alive  
I'll bury you alive

You talk too much  
So keep your big mouth shut  
Hope you understand these facts  
Cause I will bury you alive

Even if your life is so fucking boring  
Keep your hands off my life  
Keep your hands off my life  
Fucking bitch

Rumours where I live  
Makes me feel the beat  
What the word "jealous" means for me  
How should I live
