

Pardon Me! Where Do I Find 4giveness

One Morning Left

This is the end, this is the end, long way, corrupt mind,
Wrong words, bad things, I don't need that shit anymore
One thing, let's celebrate, let's party together

I wanna be part of this, I wanna be part of this
This will be our, this will be our last dance

Replay those years, there may not be
Another chance to see those beautiful moments
Chasing the dream, finding the truth
So please, close your eyes

So let's celebrate with our enemies,
Can't you see we're chasing the dream (3x)

So let's celebrate with our enemies,
Can't you see we're chasing the fucking dream

Wrong words, bad things, I don't need that shit anymore
One thing, let's celebrate, let's party together
I wanna be a part, I wanna be part of this

Replay those years, There may not be
Another chance to see those beautiful moments
Chasing the dream, finding the truth
So please, close your eyes

Close your eyes..
So let's celebrate with our enemies,
So let's celebrate with our enemies.

Just close your eyes..
Just close your eyes.
