You can have it all Anything you want Waking up to morning calls Nothing gives you more

What excitement do you sense? Friday night and not much else And you count the money spent When you have it all

We could have anything
They make us all believe
Turn us into film stars, baby
All you ever need
We will all have millions someday
Pay for all our dreams
We could have anything
They make us all believe
They make us all believe
Anything you want

We can have it all Everything we need Pull yourself up out of bed Don't let them see you bleed

While you watch the glasses fill Hold back tears and hold it still You can have it all Anything you want

We could have anything
They make us all believe
Turn us into film stars, baby
All you ever need
We will all have millions someday
Pay for all our dreams
We could have anything
They make us all believe
They make us all believe
Anything you want

We could have anything
They make us all believe
Turn us into film stars, baby
All you ever need
We will all have millions someday
Pay for all our dreams
We could have anything
They make us all believe
Anything you want
Everything you need
You can have it all
Anything you want
And anything you need...
