

# Bring Me Back Down

One Night Only

All I want  
To bring me back down  
Is your tired blue eyes  
That follow me round

Dressed in white  
And starting to shine  
My head is full  
Of a beautiful sound

Light stands round us  
The face is love  
And the sound  
Shall slow

Bring me back down  
Wherever you are  
All that I want is you  
Bring me back down  
Wherever you are  
All that I want is you  
Watch her move so slow  
Move so slow  
Bring me back down

All I need  
To bring me back down  
Girl, pull on the ropes  
Said I'm safe on the ground

Light stands round us  
The face is love  
And the sound  
Shall slow

Bring me back down  
Wherever you are  
All that I want is you  
Bring me back down  
Wherever you are  
Cos all that I want is you  
Watch her move so slow  
Move so slow  
Bring me back down

Bring me back down  
Wherever you are  
All that I want is you  
Bring me back down  
Wherever you are  
All that I want is you  
Watch her move so slow  
Move so slow  
Bring me back down
