## **Bring Me Back Down**

## **One Night Only**

All I want To bring me back down Is your tired blue eyes That follow me round Dressed in white And starting to shine My head is full Of a beautiful sound

Light stands round us The face is love And the sound Shall slow

Bring me back down Wherever you are All that I want is you Bring me back down Wherever you are All that I want is you Watch her move so slow Move so slow Bring me back down

All I need To bring me back down Girl, pull on the ropes Said I'm safe on the ground

Light stands round us The face is love And the sound Shall slow

Bring me back down Wherever you are All that I want is you Bring me back down Wherever you are Cos all that I want is you Watch her move so slow Move so slow Bring me back down

Bring me back down Wherever you are All that I want is you Bring me back down Wherever you are All that I want is you Watch her move so slow Move so slow Bring me back down
