

Never Be The Same

One Night Only

You see colours fly
Around your head
And you don't know why
You don't know why

You call out his name
And what's left unsaid
And you don't know why
You don't know why

And with all these clouds
High above you
I guess it's gonna rain
And there's no one left
To love you
It'll never be the same
It'll never be the same

Someone said his name
And it broke your heart
And you don't know why
You don't know why

You look up at the sky
While you kneel and pray
And you wonder why
You don't know why

And with all these clouds
High above you
I guess it's gonna rain
Now there's no one left
To love you
It'll never be the same
It'll never be the same

All alone you count the days
And all you know just flies away
All in favour, scream it wide
Just plead your head to love or cry (?)
And say goodbye

Someone said his name
And it broke your heart
And you don't know why
You don't know why

And with all these clouds
High above you
I guess it's gonna rain
Now there's no one left
To love you
It'll never be the same
It'll never be the same
It'll never be the same...
