

# Bon Voyage

ONE OK ROCK

It took some time to realize  
That things are not getting better  
We should know, we should know  
It's over

You're seeing the other side of me  
We tried to weather the weather  
We should know, we should know  
That night's gone

Never getting better

I know things won't change  
I'm saying bon voyage  
Down to the line  
Down to the line  
It's time to sail

We're stuck on repeat  
I'm saying bon voyage  
Down to the line  
Down to the line  
I'm letting go

I hope you find another life  
Maybe you'll start getting better  
We should know, we should know  
It's over

I miss the days I spent alone  
Before we lived together  
We should know, we should know  
That time's gone

Never getting better

I know things won't change  
I'm saying bon voyage  
Down to the line  
Down to the line  
It's time to sail

We're stuck on repeat  
I'm saying bon voyage  
Down to the line  
Down to the line  
I'm letting go
