

Giants

ONE OK ROCK

Through silence, yeah, the fun that we knew
I know your mind is looking for our truth
Don't need reminding, the living proof
So, walk with me and I'll walk with you

So, now we're standing on the edge
Our backs against the wall
A penthouse view on our own two
And now we're standing tall

We can be giants, giants
We can be giants, giants
'Cause every one of us has always been enough
We can be giants, giants

The chaos, our kingdom fell
Stole heaven, so we gave 'em hell
And the pieces will find themselves
So, fight for me, I'll fight as well

So, now we're standing on the edge
Our backs against the wall
A penthouse view on our own two
And now we're standing tall

We can be giants, giants
We can be giants, giants
'Cause every one of us has always been enough
We can be giants, giants

Giants, giants
We can be giants, giants
We can be giants, giants
'Cause every one of us has always been enough
We can be, we can be giants, giants

We can be giants, giants
We can be giants, giants
'Cause every one of us has always been enough
We can be giants, giants
