Letting Go

ONE OK ROCK

I remember getting fucked up on the long nights
I remember how we made up after long fights
I remember when we stayed up to the daylight
I remember when you told me you were all mine

Let the past be the past
'Cause I know nothing lasts
Yeah, we had what we had
But I'm moving on

I hope you know that it wasn't easy
Letting go of the life I knew
I just had to get out, move to the city
Didn't feel right taking you with me
Hope you know that it wasn't easy letting go

I tell myself that I don't need you, that I'm okay
Tell myself I'm on my own now, go my own way
I see the pictures of your new life, you look happy
Tell myself moving on should be easy

Let the past be the past
'Cause I know nothing lasts
Yeah, we had what we had
But I'm moving on

I hope you know that it wasn't easy
Letting go of the life I knew
I just had to get out, move to the city
Didn't feel right taking you with me
Hope you know that it wasn't easy letting go

I was so scared of heights before I fell for you
Felt like we had nothing but time
Lie to each other, but we know it's true
Our love was young and born to die

I remember when we stayed up to the daylight
I remember when you told me you were all mine

I hope you know that it wasn't easy
Letting go of the life I knew
I just had to get out, move to the city
Didn't feel right taking you with me
Hope you know that it wasn't easy letting go
Letting go
Letting go
Letting go
