

## Push Back

ONE OK ROCK

Gun to our heads  
They're tryin' to tell us what to think  
We're stuck on the edge  
So, go ahead and push us  
We'll get up and push back  
Push back

They call it revolution, but nothing's changed  
They call it medication, we're still in pain

Now we're back in the fight and never losing our strength  
We tried too many times just waiting patiently, patiently

It's like they're holding their gun to our heads  
They're tryin' to tell us what to think  
We're stuck on the edge  
So, go ahead and push us  
We'll get up and push back  
Push back

Your precious reputation goes up in flames  
Your empty information, we know it's so fake

Now we're back in the fight and never losing our strength  
We tried too many times just waiting patiently, patiently

It's like they're holding their gun to our heads  
They're tryin' to tell us what to think  
We're stuck on the edge  
So, go ahead and push us  
We'll get up and push back  
Push back

(Push back)

Gun to our heads  
They're tryin' to tell us what to think  
We're stuck on the edge  
So, go ahead and push us  
We'll get up and push back  
Push back
