

# City Of Devils

## One Tree Hill

Man once sang to me  
Look at you saving the world on your own  
And I wonder how things gonna be  
As the time here it passes so slow

In a city of devils we live  
A city of devils we live

Find somebody to learn  
Boy, you gotta love someone more than yourself  
I can feel the fire of the city lights burn  
And it's hard to find Angels in Hell

Flying alone  
And I  
Feel like I don't belong  
And I  
Can't tell right from the wrong  
And why have I been here so long?

In a city of devils we live  
A city of devils we live

Questions I can't seem to find  
To the answers I already have  
And you can't see the sky here at night  
So I guess I can't make my way back

Flying alone  
And I  
Feel like I don't belong  
And I  
Can't tell right from the wrong  
And why have I been here so long?

What if I wanted you here  
Right now  
Would you fall in the fire burn me down  
If I wanted you here  
Right now  
Would you fall in the fire burn me down  
If I wanted you here  
Right now

In a city of devils we live (2x)  
A city of devils we live  
In a city of...

Flying alone  
And I  
Feel like I don't belong  
And I  
Can't tell right from the wrong  
And why have I been here so long?

I don't belong  
Don't belong

I've been here too long  
Too long
