

Well, you're just across the street  
Looks a mile to my feet  
I want to go to you, funny how I'm nervous still  
I've always been the easy kill, I guess I always will

Could it be that everything goes around by chance  
Or only one way that it was always meant to be?  
You kill me, you always know the perfect thing to say  
Hey, hey, hey, hey  
I know what I should do but I just can't walk away

I can picture your face well from the bar in my hotel  
I wish I [Incomprehensible] you  
I'll pick up put down the phone  
Like your favorite Heath Mizer song goes  
It's just like being alone

Oh God, please don't tell me this has been in vain  
I need answers for what all the waiting I've done these  
You kill me, you've got some nerve  
But can't face your mistakes  
Hey, hey, hey, hey  
I know what I should do but I just can't turn away

Away, away

So go on, love, leave while there's still hope for escape  
Gotta take what you can these days  
There's so much ahead and so much regret  
I know what you wanna say

I know it but can't help, but feel indifferently  
I loved you and I should have said it  
But tell me, just what has it ever meant?

I can't help it baby, this is who I am  
Sorry but I can't just go turn off how I feel  
You kill me, you build me up but just to watch me break  
Hey, hey, hey, hey  
I know what I should do but I just can't walk away
