Overdue - Get Up Kids

You're a few years overdue I spent them waiting here for you Now your charity's refused I can name a penance for abuse

Twenty four years overdue What kind of role model are you? Very least learn not to do I think I might be over you

Do hope I won't Learn to make The same mistakes That you would Make me aware That only fear My only hope Is letting go

Went on a limb for you Capsized when I turned twenty two Did it burn as bad for you? No bottle serves to soothe my wounds

Do hope I won't Learn to make The same mistakes, That you would Make me aware That only fear My only hope Is letting go My only hope Is letting go

My only hope Is letting go

You're a few years overdue I spent them waiting here for you **One Tree Hill**
