

Walk The Moon

One Tree Hill

When they walk the moon
I'll kiss myself goodnight
I think they'll touch down soon
Wonder if she knew
As the crowd get high and sing
I look up through the glass and think
Floating up there
Would I feel empty?
I'd waltz in the thin air
Wishing everyone was okay

When the time was right
I rose so I could laugh
Now I hold my head up high
Watch the moon and smile
Floating
Up there
Would I feel empty?
I'd waltz in the thin air
Knowing everyone was okay

When they walk the moon
Kissed myself goodnight
Hope to be home soon

As it stands taken from the hand
It's just a beautiful image
Round and unusual
Stupid girl in her bikini and pearls
It's just the fact that she's headstrong
Makes her fall like the next one
Gifts at the dance or
Tokens out for the draft
We shouldn't fear who we talk to
Feel is the mightiest
As it stands taken from the hand
It's just a beautiful image
Making us feel strong
Floating up there
Would I feel empty?
I'd waltz in the thin air
Knowing everyone is okay

When they walk the moon...
