

Liberation

One-Way Mirror

I want to feel but you're going away
And I won't wait until another day
This time I will do it another way
I got a ticket to ride your sister
Don't you know she's better than you
Don't you know we both f**k you

Bang, bang!
Just pay attention
I'm turning into the real thing
Bang, bang!
It's time for liberation
You're turning into a dead thing

Now you want to feel but I'm going away
And I won't wait until another day
This time I will do it my way
I got a ticket to ride your sister
Don't you know she's better than you

I'm about to f**k so get the f**k away
And I won't wait until another day
This time I will do it her way
I got a ticket to ride your sister
Don't you know she's better than you
I got a ticket to ride your sister

Bang, bang!
Just pay attention
I'm turning into the real thing
Bang, bang!
It's time for liberation
You're turning into a dead thing

Bang, bang!
Just pay attention
I'm turning into the real thing
Bang, bang!
It's time for liberation
You're turning into a dead thing
