```
Shut up, shut up, shut up
Shut up, shut up, shut up
```

One year and still the same -- Don't wanna be left aground Your bullshit and lies to blame -- You can't blame me You live a lie that's so unique -- That's me, I'm so unique You're fed on bullshit, now it's reached a peak -- No not me no

You know you know you know
You're just a fucking lie -- Man of the world
I know I know I know
The fucking reason why -- Man of the world
You know you know you know
You're just a fucking blame -- Man of the world
I know I know I know
I'll never be the fucking same -- Man of the world

Life goes on it's still the same -- You should know me by now You're fucked promise still to blame -- Who said I won't be put down Still live in lie, that's so unique -- Who's sorry now You're fed on bullshit, it's reached a peak -- Now here you fall

You know you know you know
You're just a fucking lie -- Man of the world
I know I know I know
The fucking reason why -- Man of the world
You know you know you know
You're just a fucking blame -- Man of the world
I know I know I know
I'll never be the fucking same -- Man of the world

Shut up, shut up, shut up shut up, Shut up, shut up, man of the world Shut up, shut up, man of the world Shut up, shut up, man of the world...

You're just a fucking lie -- Man of the world
I know I know I know
The fucking reason why -- Man of the world
You know you know you know
You're just a fucking blame -- Man of the world
I know I know I know
I'll never be the fucking same -- Man of the world
