

What You Wanted

OneRepublic

I'll find the places where you hide
I'll be the dawn on your worst night
Only thing left in one life
I would kill for you that's right

If that's what you wanted
If that's what you wanted
If that's what you wanted
If that's what you wanted

I'll put your poison in my veins
They say the best love is insane
I'll light your fire till my last day
I'll let your fields burn around me , around me

I'll run now, this time
Oh, my love is true
Tell me, something that I wouldn't do.

If that's what you wanted
If that's what you wanted
If that's what you wanted
If that's what you wanted
