

## Shed The Skin

OneSideZero

swallow your eyes  
circle the tired  
survive  
sharing the light we have lost  
you might believe  
that it was so lost  
forcing us down into another belief to carry us home  
forcing us down into  
you wrote the words  
that we said so wrong  
swallow your rights  
sample the sweetness of your life  
show me what it means to be free  
you might believe  
that it was so wrong  
forcing us down into  
another belief to carry us home  
forcing us down into  
but you wrote the words  
that we said so wrong  
I feel like I shed my skin  
we've done it this time  
we've lost all self control  
follow us this time  
I wish I could  
imprisoned this time  
when will the truth be told  
follow us this time  
I wish I could  
you might believe  
that it was so wrong  
forcing us down into  
another belief to carry us home  
forcing us down into  
but you wrote the words  
that we said so wrong  
forcing us down into  
another disease that's killing us off  
so wrong  
we're so wrong  
I feel like I shed my skin
