

There's still a million things I wish I'd never said  
And I know that it's never sacred  
But the fear the shadowed yesterday still haunts me to the core  
And I wish I'd had the state of mind to brace for so much more  
But that's just me

God help me strip away what's come between the two of us  
And maybe we can stay friends forever  
Because you know me inside out  
And it breaks my heart to pass without a word  
After all this time

I'm the one who stood beside you on your wedding day  
I don't think I've ever been so proud  
But I allowed myself to slip away and the air became unkind  
And now even though we've made our peace  
We still can't make the time  
And that's just us

Grown tired of building fences  
So sick of silent walls  
When I feel just like a traitor to it all  
I hope you hear it someday  
I'll be a better friend  
Because I want you there in the end  
Too high a price to pay  
Without a thing to say  
I know I'm better by your side  
Than I'll ever be alone  
Without a thing to say
