

# Code Black

## Onslaught

Waves of chaos all around  
The birth of new religion  
Rise from the underground  
Empower enslave  
Insurrection breaking down  
In dark and brutal vision  
Symphonic violent sound  
The symbol is raised

This is nouveau supremacy  
A neo nightmare  
The wolf is rising from its lair  
There is no turning back

The code is black  
The code is black  
Rise  
This is the new world order

Pulling on the strings of hate  
Sadistic revolution  
Crushing subhuman faith  
Objective engaged  
Killing becomes industry  
Defining resolution  
War on impurity  
Relentless campaign

This is nouveau supremacy  
A neo nightmare  
The wolf is rising from its lair  
There is no turning back

The code is black  
The code is black  
Rise  
This is the new world order

Death become the weak  
Only strong will survive  
Machine like propaganda  
Fills a nation with pride  
Hatred never seen  
In the speeches of peace  
From the designers of a dream  
Only hell can unleash  
Soldiers of the storm  
Shock, divide and deploy  
Elitist special forces  
Operate and destroy  
The sacrificial lamb  
At the jaws of a beast  
Total destruction of a kind  
And religious belief

This is nouveau supremacy  
A neo nightmare

The wolf is rising from its lair  
There is no turning back

The code is black  
The code is black  
Rise  
This is the new world order  
The code is black  
Rise  
The code is black  
The code, the code is black  
The code, the code is black  
The code, the code is black
