Onslaught

Jesus is religion is religion so pure
Eternal supplication to the son of a whore
Evangelizing masses with a vision of war
Infectious propaganda is the killer of the cure

Leper, liar, thief
Born unto unholy priest
Cult of no release

Children of god they hear no evil
Children of god they see no evil
Children of god they speak no evil
Children of god pure fucking evil

Decadence the gospel of a preacher divine
Immoral revolution spinning circles of lies
Spreading the disease is the coming of Christ
Keep it in the family and forsaking all life

Leper, liar, thief
Born unto unholy priest
Cult of no release

Children of god they hear no evil
Children of god they see no evil
Children of god they speak no evil
Children of god pure fucking evil

Godhead trinity
Angel of supremacy
Godhead reality
There is more than meets the eye
Godhead imprisoning
Censoring, menacing
Godhead the family
I'll see you all
See you all in hell

Children of god they hear no evil
Children of god they see no evil
Children of god they speak no evil
Children of god pure fucking evil
