

Step inside this world of hate

Search lights cut through the darkest of air  
Eagles fly where the brave only dare  
Pray for death let the chaos begin  
Thou shalt kill is the mandatory sin

You wanna start a fucking war  
You wanna feed upon the energy  
You wanna take the shortest straw  
You wanna take it to the death

Viva la hate  
A circle of brutality  
Hatred dictates  
Gonna pull you under  
Viva la hate  
The ultimate insanity  
Violence awaits  
You can burn with me in hell

Hate sent fuel powers deep through my veins  
Troops of doom run theaters of pain  
White red black hail the backdrop of fear  
Anger burns ritual violence crawling near

Annihilation crushing all  
Extermination of the enemy  
Destructive loss of self control  
You wanna take it to the death

Viva la hate  
A circle of brutality  
Hatred dictates  
Gonna take you under  
Viva la hate  
The ultimate insanity  
Violence awaits  
You can burn with me in hell

They speak with twisted minds  
Of concepts so despised  
Their fear is where we shine  
You are the hate  
We are the hate  
Viva la hate

Blood stained walls in the hatebox domain  
War dogs prey on the weak and insane  
Human storm laying waste in the pits  
Special force bare the number of 666

You wanna start a fucking war  
You wanna feed upon the energy  
You wanna take the shortest straw  
You wanna take it to the death

Viva la hate  
A circle of brutality  
Hatred dictates  
Gonna take you under  
Viva la hate  
The ultimate insanity  
Violence awaits  
You can burn with me in hell  
Viva la hate  
Viva la hate
