

## Lord of Evil

## Onslaught

One thousand years a captor banished to the pit  
Satan calls his armies to rise up from the crypts  
They're rising from Tartarus vengeance in their eyes  
Power from below the earth from where all evils lie

Satan captor in his realm bound for 1,000 years  
Evil, hatred burns inside vengeance fire from the skies

The lord of evil he rides again  
The lord of evil 1,000 years he was held a slave

Deep inside the depths of hell along the river Styx  
Charon rows his boat of death around the burning pits  
The advocate for Satan a worldwide death crusade  
Cruel death fighting demons will rule the earth his way

The lord of evil he rides again  
The lord of evil 1,000 years he was held a slave
