

# Welcome To Dying

Onslaught

As time slips by  
I awaken from my sleep  
Too blind to see  
That tomorrow's just a dream  
I fear no pain  
As I reach toward the sky  
Immortal words  
Was I really born to die

My destiny  
Please release me from this hell  
I'm locked inside  
Cannot break the broken spell

Welcome to dying  
Welcome to dying  
Now say your last goodbyes

The darkness dies  
But the dawn it brings no light  
In life or death  
Our existence is a fight  
In sight of end  
Let me die leave me in peace  
A slave to life  
Break the chains and set me free

My destiny  
Please release me from this hell  
I'm locked inside, locked inside  
Cannot break the broken spell

Welcome to dying  
Welcome to dying  
Now say your last goodbyes

Death is spreading like disease  
Life I cannot see  
Fate a shadow blackening my soul  
Life holds nothing for me now  
Death so let it be  
Fate is something far beyond control

Welcome to dying  
Welcome to dying  
Now say your last goodbyes

Before my eyes  
Flashing memories of the past  
I lie in wait  
Could these thoughts now be my last  
Time fade away  
Have I wasted all these years  
As air grows cold  
For the end is drawing near

My destiny

Please release me from this hell  
I'm locked inside, locked inside  
Cannot break the broken spell

Welcome to dying  
Welcome to dying  
Now say your last goodbyes
