

## Enemies

### Onward To Olympus

All hell breaks loose  
For one reason only  
To try to destroy me and my ways of trying to save

Battered and Buried I stand  
Done by the work of your hands  
But if you open up your eyes to see  
That you will never defeat me  
I will stand my ground defeat any boundaries so try and give everything you have

So choke on your words  
Cause nothing you say  
Can destroy my God  
(Nothing you say)

Battered and Buried I stand  
Done by the work of your hands  
But if you open up your eyes to see  
That you will never defeat me

I will stand my ground defeat any boundaries so try and give everything you have (2x)

But if you open up your eyes to see  
(Open your eyes)  
That you will never defeat me

I watched you try to take us down  
I watched you try to take us down  
But you can't bring us down  
(You can't bring us down)  
But you can't bring us down  
(You can't bring us down)
