

This World Is Not My Home

Onward To Olympas

I'm breathless
I can't speak at all
When I think of myself exactly like everyone
In our lives we get told who we are
This world is full of judgment

Whoa if only you had known
If only you had known
That this world is not your home
Is not your home

I will not let you affect my life
I'm tired of living in your ways
I will stand tall and stay strong
But I will take this challenge
And make something of myself

Whoa if only you had known
If only you had known
That this world is not your home
Is not your home
Whoa if only you had know
If only you had known

This world is not my home
I'm only here to share the message
This world is not my home
I live behind the gates

This world is not my home

Say what you will but I'll still be standing
Safe and secure undeservingly pure you found me
Ignored your call I lost it all your grace abounding
Giver of life guide me home (guide me home).
