

# Breathtaker

Oomph!

Midnight - all the kids are asleep  
Moonlight makes them breathe in so deep  
Inside hunger cuts like a knife  
Upside I can smell the real life  
I'm climbing their beds, I lift up their heads  
I open my mouth - oh, I love all the brats

'Cause I'm the breathtaker  
I am the death faker - Ha!  
I am the fear of your family  
I am the boneshaker  
I am the breathtaker  
And I'm gonna make you blue...

Nightmares make your sheet soaking wet  
Upstairs - all alone in your bed  
You end up your sighs, you open your eyes  
You struggle and fight, but I smother your cries

'Cause I'm the breathtaker  
I am the death faker - Ha!  
I am the fear of your family  
I am the heartbraker  
I am the breathtaker  
I am the death faker - Ha!  
I am the fear of your family  
I am the hellquaker  
I am the breathtaker  
And I'm really stuck on you...

Never too late to die young! - Go ahead! Try to shout!  
Never too late to die young! - What is that? Is that loud?  
Never too late to die young! - Little rat - let it out!  
Just to empty one lung - never too late to die young!  
They open the door, you lie on the floor  
And though they will try you won't breathe anymore

Cause I'm the breathtaker  
I am the death faker - Ha!  
I am the fear of your family  
I am the hellquaker  
I am the breathtaker  
I am the death faker - Ha!  
I am the fear of your family  
I am the heartbraker  
I am the breathtaker  
I am the death fake - Ha!  
I am the fear of your family  
I am the boneshaker  
I am the breathtaker  
And I'm gonna get you too...

Never too late to die young!
