

Burning Desire

Oomph!

How many nights have I
lived deep inside of you?
How many dreams has
your pain given me to use?

How many nights have you
lost yourself so forlorn
How many dreams have I
screamed as your are reborn

From my last burning desire
There's no escape, no salvation
From my last burning desire
No force in Heaven nor Hell
can save your soul

How many nights have I
possessed you so perverse?
How many dreams have you
obsessed me like a curse?

How many countless nights
have I spent now with you?
How many dreams has your heart
burnt me thought and thought?

From my last burning desire
There's no escape, no salvation
From my last burning desire
No force in Heaven nor Hell
can save your soul

From my last burning desire
(How many nights have you...)
There's no escape, no salvation
(How many dreams have I...)
From my last burning desire
(How many nights have you...)
No force in Heaven nor Hell
can save your soul

Come now and melt
Your skin with me
Just squander the pain
that you feel
Come now and melt
Your skin with me

From my last burning desire
There's no escape, no salvation
From my last burning desire
No force in Heaven nor Hell
can save your soul

From my last burning desire
(How many nights have you...)
There's no escape, no salvation

(How many dreams have I...)
From my last burning desire
(How many nights have you...)
No force in Heaven nor Hell
can save your soul

No force in Heaven nor Hell
can save your soul
