

Wake Up!

Oomph!

Got no time for waiting
Got no time to waste
Everywhere machines here
Set a deadly pace
Got no time for questions
You have work to do
Got no time to stand now
If you stop, you lose

Just breathe in
Then breathe out

Wake up!
Now you're stuck in this game
And even if you run, the story's the same
Wake up!
Now you're stuck in this game
You're just stuck in this game

Got no time for dreaming
Follow your commands
Got no time for chances
Or to understand
Got no time for lovers
We all fight alone
No one sees you bleeding
No one hears your moans

Just breathe in
Then breathe out

Wake up!
Now you're stuck in this game
And even if you run, the story's the same
Wake up!
Now you're stuck in this game
You're just stuck in this game

Wake up!
Now you're stuck in this game
And even if you run, the story's the same
Wake up!
Now you're stuck in this game
You're just stuck in this game

Your life is seeping through your fingers like sand
And time, it flies like the wind
You run in circles and you're losing your mind
But all you want is to win

Just breathe in
Then breathe out

Wake up!
Now you're stuck in this game
And even if you run, the story's the same
Wake up!

Now you're stuck in this game
You're just stuck in this game

Wake up!
Now you're stuck in this game
And even if you run, the story's the same
Wake up!
Now you're stuck in this game
You're just stuck in this game

Wake up!
Wake up!
Wake up!
