

Theres a war going down between my brothers tonight  
I dont want no war going down tonight  
Civilization ha I call it as I see it  
I call it bullshit you know I still cannot believe it  
Our evolution now has gone the way of hate  
A world evolved resolved in this stupid fate  
Stop this war  
All so different yeah I say were all the same  
All caught you know in the division game  
Self destruction fast impending like a bullet  
No one can stop it once its fired no one can control it  
Stop this war  
A final word, wait it's not a call to action  
We aint no sect we aint no fucking faction  
Unity unity youve heard it all before  
This time its not exclusive we want to stop a war  
Unity as one stand together  
Unity evolutions gonna come
