

# Eternal Rains Will Come

Opeth

Eternal rains will come  
We should say goodbye  
And suffer on our own  
As all our thoughts were wrong

So hard to keep the darkness from seeping through  
And when the flood comes to drown us  
There is nothing we can do

You told me not to wait  
Unless I could wait forever  
Because there is no time for us  
Take comfort in what was

So hard to keep the darkness from seeping through  
And when the flood comes to drown us  
There is nothing we can do

Here it comes, our death comes  
And in my sleep I can't forget

Reaching for the surface, I see you
