

# River

Opeth

Show me a sign of troubles in your heart  
Spare me your lies and tell me that you're mine

And our bodies float on the river  
To the oceans of demise

Made me a slave to the secrets of your silence  
But you told me to stay  
And you told me you're mine

And our bodies float on the river  
To the oceans of demise

In light of all things to come, why do you despair?  
Because when you have no one, no one would care  
So don't care

And all things will come undone  
There is nothing to share  
I'll be waiting for no one  
And no one is there to care

Can't see, can't feel  
You run, I long  
I wait, he comes  
Takes you away

In the embers of summer  
All things must die  
There's a passage of fire ahead  
Fire on the other side

There comes a time when the river runs dry  
Winter comes and we sacrifice  
Our lives
