

Close To You

OPM

There's nothin' I won't try
Just to make you mine,
To get a little closer
Would be so divine.

And everytime I see you
You make me come undone,
I always watch you near me
And you have found the one.

Oh why don't you smile my only star
Shine on baby
Smile my only star
Smile my only star (2x)

Oh, with you by my side
I'm gonna feel so right,
And now that I'm close to you
Oh I could stay all night.

No matter where I go,
No matter what I do,
In the end your smile
Takes me back to you.

You shine so true,
I can't believe you're mine
And everything may change
But to me you'll always shine
