There's nothi'n I wont try Just to make you mine, To get a little closer Would be so divine.

And everytime I see you You make come undone, I always watch you near me And you have found the one.

Oh why don't you smile my only star Shine on baby Smile my only star Smile my only star (2x)

Oh, with you by my side
I'm gonna feel so right,
And now that im close to you
Oh I could stay all night.

No matter where I go, No matter what i do, In the end your smile Takes me back to you.

You shine so true, I can't believe you're mine And everything may change But to me you'll always shine
