

Horny

OPM

I been sitting here all night long
I been sitting here for way too long
Will somebody tell me whats going on
Will somebody tell me what I'm doing wrong
Cause girls come and yes girls they go
I wish these girls would just let me know
Can I take you home tonight
Is my future with you looking bright
We ain't nothing but dust in your eye
I'm content just like being high
Flirting just makes time go by
It seems nothing works even though I try
So this is what we're gonna do
You'll make easy for me I'll make it easy for u
Just clap your hands just clap your hands
Just clap your hands if your horny

If your horny and you know it clap your hands
If your horny and you know it clap your hands
If your horny and you know it and you really wanna show it
Get on my lap and do a dance

I keep on looking at her like I got game
Whats your sign girl whats your name
Are you looking at me like I'm looking at u
L8r on baby doll we'll be cooking for 2
Girls come and yes girls they go
I wish these girls would just let me know
Can I take you home tonight
Is my future with you looking bright
All this conversating is so frustrating
All this waiting that comes along with dating
Masturbating we'll be just fine
Just wasting time with these pick up lines
Well this is what we're gonna do
You'll make easy for me I'll make it easy for u
Just clap your hands just clap your hands
Just clap your hands if your horny

If your horny and you know it clap your hands
If your horny and you know it clap your hands
If your horny and you know it and you really wanna show it
Get on my lap and do a dance

Put your hands back on
Put your hands back on
Put your hands back on

If your horny and you know it clap your hands
If your horny and you know it clap your hands
If your horny and you know it and you really wanna show it
Get on my lap and do a dance
If your horny and you know it clap your hands
If your horny and you know it clap your hands
If your horny and you know it and you really wanna show it
If your horny and you know it clap your hands
If your horny and you know it clap your hands

If your horny and you know it clap your hands
If your horny and you know it and you really wanna show it
Get on my lap and do a dance
If your horny and you know it clap your hands
If your horny and you know it clap your hands
If your horny and you know it and you really wanna show it
If your horny and you know it clap your hands
