

Awaken

Opshop

Wide awake in my slumber
Dishes pilin' to the sink
I caught a glimpse and I was sleepin'
I tried on other faces
I tried on other spaces
Yeahâ^!

Contagious abandon
I'm addicted to the charm
Some people give other people
A licence to take chance
A licence to make a change
Woahâ^!

Sleep in your darkness
Or walk on water and back again
Sleep in your thoughts now
Or try on other souls again, oh

Awaken'
Awaken'
Awaken'
Awaken'

Wrestle with bravado
But you love it desperately, yeah
You and me we're part of each other
I will see you when I'm dreamin'
May I see you when I dream

Oh, sleep in your darkness
Or walk on water and back again
Sleep in your thoughts now
Or try on other souls again, oh

Awaken'
Awaken'
Awaken'
Awaken'

If I could find myself a human race
That remembers my divine place
I could enter a life without a trace'

Stoke the fire, we're home tonight
We'll fall to pieces and start again
Sleep in your souls or try on other thoughts again
