

Breathing Space

Opshop

I'm so sorry
We were getting so tired
And here I was off dreaming again
One day we'd see the light before it caught fire
One day we'd see the light before it caught fire

Don't give me breathing space
I said, don't you dare give me breathing space
We're so familiar here
We're so, so out of place, my love, oh
And I would rather be anywhere

She knows '
Oh-hoo '

Something's circling
I can feel the weight deep under our breath
Come hold my hand
Hold it as tight as you can
Hold it as tight as you can

Ho '

Don't give me breathing space
I said, don't you dare give me breathing space
We're so senseless here
We're so, so out of place, my love, oh
And I would rather be anywhere'

Anywhere '
Ooh '

Can we not see it
Can we not see it
Can we not see it through

We so defenceless here
We're so, so out of place, my love, oh
I would rather be anywhere
Anywhere

Ooh '
