Breathing Space

I'm so sorry We were getting so tired And here I was off dreaming again One day we'd see the light before it caught fire One day we'd see the light before it caught fire Don't give me breathing space I said, don't you dare give me breathing space We're so familiar here We're so, so out of place, my love, oh And I would rather be anywhere She knows' Oh-hoo' Something's circling I can feel the weight deep under our breath Come hold my hand Hold it as tight as you can Hold it as tight as you can Ho' Don't give me breathing space I said, don't you dare give me breathing space We're so senseless here We're so, so out of place, my love, oh And I would rather be anywhere' Anywhere' Ooh' Can we not see it Can we not see it Can we not see it through We so defenceless here We're so, so out of place, my love, oh I would rather be anywhere Anywhere Ooh'
