

Saturated

Opshop

(Let's stay up all night)

(Let's stay up all night)

(Let's stay up all night)

The rain is seepin' through these skins
Drinkin' deep while the pale light thins
We're sinkin' deeper into our shoes
Into the ones we once tried
To lose, lose, lose, lose

I know we're gettin' saturated
But we'll be alright
I know that it's cold when the half-light is fadin'
So let's stay up all night

Invisible auras drift over
She pulls us out of the black into the deep sea
Her warm body comes to comfort my need
When our love is swimmin'
Upstream, upstream, upstream, upstream, yeah

I know we're gettin' saturated, baby (baby, baby)
I know that it's cold when the half-light's fadin'

So let's stay up all night
Come on, let's stay up all night
Come on, let's stay up all night

We're under the moon
(Let's stay up all night)
We'll crash through the waves
Come swimmin' back
(Come on, let's stay up all night)
Come swimmin' back
Come on, swim back, swim back, swim back
(Come on, let's stay up all night)
Oh tonight

(Let's stay up all night, all night, all night)
