

# When You Made The Mountain

Opus III

La la la la la, la la la la la  
The centuries  
Going back to zero  
Say I'm a fool  
And every man a hero  
I am the future  
I am the coming force  
Mother nature  
Will take no other course

Somewhere to climb upon  
Somewhere to look at you from  
When you made the mountain  
You made me  
When you made the mountain  
You made me  
When you made the mountain you made me
