

Can't Decide

Orange 9mm

Stand real close to me and do just like I do
Open your mind and cock the trigger back far
Pull it at the point where you feel most pain
Pull it at the point where you feel most alive

I can't live, I know we can't live
And life's so dirty, we're so lost
Standing on the edge of our lives without a dime or a thought o
r a dream
Dizzy just crying to fall head over heels in love with somethin
g

We are waiting for our hits to come
We are waiting for our hits to come
I can feel mine rolling along
Like a song that makes me warm
I can see yours rolling along
Your eyes tell me nothing's wrong

How does this feel to smile through our tears
And grasp wild in the darkness no fears
Standing on the edge of our lives without a dime or a thought f
or a dream
Dizzy just crying to fall head over heels in love with somethin
g
